WORK EXPERIENCE

Senior Software Engineer (React.js)

Tessrac Pvt. Ltd. | **Visakhapatnam, India (WFH)**

May 2023 – Present

Worked on two projects mentioned Below -

Picxy.com

Duration: Dec 2023 – Present

Team Size: 4

Technologies: **ReactJs, NextJs, MySQL**

Developed a comprehensive platform catering to photographers and photography enthusiasts. The

platform allows users to search and purchase photographs for both digital and print use. Photographers

can upload and monetize their work via a dedicated upload module, while an internal admin module enables the management of coupon codes, discounts, and promotional offers to enhance user and sales.

Orbit – Intelligent Tracking

Duration: May 2023 - Nov 2023
Team Size: 5
Technologies: **ReactJs, Redux(RTK), MyAdmin(SQL),**
Orbit is a platform designed to revolutionize the sample/assets management process for building material brands. By integrating the latest beacon technology and antenna, Orbit provides a centralized and efficient solution for managing samples across multiple stores. Brands can sign up, add store(s) and store personnel, set up store floor plans, upload sample lists and beacon information, and receive real-time feedback on sample location and interaction. This solution will streamline the sample management process, improve sample visibility, and enhance the customer experience. Orbit is user-friendly, secure, and customizable to meet the unique needs of each brand.

Senior Software Engineer (React.js)
Chetu India Pvt. Ltd. | **Noida, India**
May 2021 – April 2023
